Windsocks

These windsocks are high-visibility orange and manufactured of long-life polyester fabric that is treated to resist the effects of wind and weather. All seams are double stitched with polyester thread for strength. The windsock throat is reinforced and has solid brass grommets for easy attachment and corrosion resistance. A fastening cord is included with each windsock.

Windsock Frames

These very popular frames are constructed of welded steel for strength and durability. They have 2 ball bearings for easy swiveling and are painted for corrosion resistance. The frame is mounted to a 1 inch diameter support pipe threaded to fit a 3/4-inch size pipe or conduit.
